

# BRINGING INNOVATION AND COMMERCE CLOSER TOGETHER

**Interreg**  
CENTRAL EUROPE

European Union  
European Regional  
Development Fund

**KETGATE**

Key Enabling Technologies (KET) drive innovation and improvement across a range of business sectors. KETGATE is a project that connects business support organisations and research institutes to help small- and medium-sized companies access high-level technology. The project partners will help develop a network that can build a KET ecosystem, which makes innovation more accessible to them.
